

GLENBEIGH CONSTRUCTION LTD

ENVIRONMENTAL POLICY

Our Business

Glenbeigh Construction Ltd. was established in 1985 and has over 30 years experience in commercial, refurbishment, fit-out, new build management and construction works as well as pre-engineered modular buildings.

Our Strategy

Our strategy is to carry out all works in accordance with Environmental legal and regulatory requirements, client contractual requirements, the environmental needs and expectations of interested parties and to manage and operate our activities in an environmentally responsible and compliant manner.

Environmental Management

We have implemented an Environmental Management System in accordance with the requirements of ISO 14001:2015 as part of our Integrated Management System and aim to achieve the following objectives:

- Manage our system to facilitate continual improvement and enhance environmental performance.
- Use this policy as a framework to set environmental objectives.
- Comply with and fulfil relevant environmental legal, regulatory and other compliance requirements as well as company policies and client requirements.
- Foster openness, dialogue, enhanced communication and discussion with all interested parties regarding our environmental performance.
- Train our employees to achieve continual improvement in environmental performance and to comply with the requirements of ISO 14001: 2015.
- Ensure that our sites are managed by experienced and trained personnel, who receive the required support from management in order to fulfil their environmental responsibilities.
- Manage our activities with diligence and with the awareness that our goal is to minimise our environmental impact, protect the natural environment and prevent pollution.
- Evaluate the environmental aspects of our activities and minimise where possible, the resulting environmental impacts.
- Ensure that our management team and persons working for and on behalf of the company are fully aware of their environmental responsibilities through the provision of communication material, training and support.
- Focus on our primary environmental goals;
 - Prevention of pollution and protection of the natural environment.
 - Sub-Contractor environmental commitment and compliance.
 - Environmental monitoring & measurement to demonstrate compliance and environmental best practice.
 - Environmental sustainability during project design and construction works
- Measure our environmental performance and level of compliance by conducting self-monitoring, regular inspections, audits and reviews.
- Publish our Environmental Policy internally, by communication to all employees and posting the document on all our sites, as well as to all interested parties on request.

The Glenbeigh Construction Ltd Management Team supports this policy and aim to ensure that it is understood, implemented and maintained by all persons working for and on behalf of Glenbeigh Construction Ltd.

This Policy shall be reviewed at least annually.
